Landscape News

~ The end of summer is fast approaching. The end of those blue skies and warm days. We still have some time to enjoy our gardens and the fruits of our labor, especially if we grew some vegetables and flowers. What could be better.

~ Along with those beautiful flowers, those pesky weeds are thriving, too. One way to combat them is to keep your beds thoroughly watered along with your turf grass. If they are healthy and thriving, the weeds have less of a chance to grab hold and become invasive. If weeds have already invaded your space remove them as soon as possible. You must pull them before the seed heads have a chance to form, dry and spread in the wind to other places, in your garden and turf areas.

~ Time to start thinking about planting those beautiful fall mums and asters. Make sure to read the tags and know that they are cold hardy in this area. If you plant now, the root system has a chance to become strong and withstand our cold northern Ohio winters.

~ Trees are an important asset to our community. We have to always make sure we are doing our best to care for them. Trees need watering regularly. If you have trees around your residence make sure they have adequate water. A good soaking every week or two will keep them thriving.

~ If your turf grass is looking less than you hoped, not to worry. Just add some water and with the cooler temperatures arriving in the fall, the lawns will return to looking green and healthy again.

~ We sometimes forget or neglect those houseplants of ours. They need to be checked for pests. This needs to be done before you bring them indoors. If they need to be re-potted this is a good time to do it. Use a potting soil that is indicated for indoor houseplants.

~ Have a great rest of the summer and please remember to water. It can make such a difference in how things grow and add to the beauty of the landscape.

~ ***As always if you have questions or concerns, please contact the office or the members of the Landscape Committee. We are here to help.***

Architecture Committee News

Window Replacement at Avenbury Lakes:

After 20 years many of the windows in Avenbury Lakes have become cloudy or cracked and may need replacement. If your home was built after 2003 your windows are likely under warranty from Simonton for 20 years. All other windows had a ten-year warranty. ABC Supply in Elyria can order windows – either an upper window with grids or a lower sash window – with a serial number and a photo of the window. You can also go on the Simonton web site and determine if your windows are under warranty.

If you want to replace a complete set of windows, however, you will need to follow the Architecture Standard for Complete Window Replacement.

Full Window Replacement, Dormer Window Replacement, and Bathroom Window Replacement:

Follow the **Architecture Standards** regarding these three window replacements. Contact the company of your choice and request approval before ordering. The following companies are familiar with our Standards and have installed windows for satisfied residents: Home Depot – Dave Masters, Cell 440-669-4207, and Window Universe – Chad Wilson, Office 216-485-2656, Cell 440-821-6406. These three window replacements require **approval** from the Architecture Committee before purchase.

Partial Window Replacement - Window sash or fixed window upper replacement:

~ Find out if the window is under warranty. Most homes built after 2003 have the ProFinish Simonton windows that are under warranty for 20 years. Other homes have windows whose warranty expired at 10 years.

~ Text these three items to ABC Supply at 440-324-3348 to **verify warranty status**:

Photo of Serial # from the window in your home, photo of the window showing grid pattern (upper window), and reason for replacement. The most common reasons are cracks or broken seals. If the window is under Warranty ABC Supply will order the window. If the window is out of Out of Warranty, go to ABC Supply to order and pay for the window. When it is in you pick it up.

~ Alternatively go to Simonton Windows web site and complete the form under Submit a Warranty replacement. If the window is under warranty Simonton will replace it. You need to provide a photo of serial number and grid pattern (upper window). Simonton will ship the window to ABC Supply. You pick up the partial replacement window from ABC Supply and call an installer or submit a request for Neighbor Helping Neighbor (NHN).

For more information call Joy Herbert or Jean Wynne.

Community Manager Report

- **Community Walk:** Staff began conducting the annual property review. We will be looking at all areas of Avenbury Lakes, letting residents and contractors know of items that need attention. The annual property review is one of many ways we ensure Avenbury Lakes continues to look it's best.
- **Mature Landscaping:** Avenbury Lakes is over 20 years old now. It may be time to consider refreshing and/or removing the plant material in your homeowner beds. Over time plants can simply outgrow the space they occupy and overwhelm the original landscape design. If you decide to update your beds, please call the Info Center and we can discuss the process with you including filling out a form for the Landscape Committee to review. If you are planting or removing a **tree**, the Landscape Committee and the Board must approve that change.
- **Thistle and other weeds:** Brightview uses a sub-contractor, On the Other Side, to treat thistle, apply fertilizer and grub treatment at Avenbury Lakes. On the Other Side has been on the property several times already spraying the thistle. If you see the plant turning brown it has been treated and is dying. If you do not see any brown on the thistle, please report the area to the Info Center for treatment.
- **Roof Replacements:** Roof work continues this month on Buckingham Drive by our contractor Final Touch. They may finish the project this month or work into September depending on the weather and other factors.
- **Gas and Electric Line Protection:** Residents may occasionally receive an offer to buy service line protection for exterior gas and electric lines to your home. Before accepting this offer, please review your Rules and Regs Handbook, "Association vs Homeowners Responsibility Chart" under Utilities and Foundations. The HOA is responsible for repairs to gas, electric, sanitary and water lines located outside of the walls or foundations of your home. You as the Homeowner would not be charged for these repairs if they were needed.
- **Brightview:** Work for the coming week is posted to the website each Monday. The pruning of new growth was delayed until late July due to labor issues. If a second pruning is not completed in the Fall, the HOA will receive a refund from Brightview.
- **Work Orders:** If you have a Work Order request, please fill it out on the Website and hit the "Submit" button. You can also print the form from the Website and put it in the slot at the front door to the Info Center. You can also come to the Info Center and fill it out here. Please do not leave Work Order requests for Patty Hales, Lodge Administrator, as an email or voicemail.
- **Autopay/Payment Coupon Books:** Just a reminder that there is a **\$15 charge** for Maintenance Fee Payment Coupon Books. If you would like to switch to Autopay, please contact Lawrence Community Management Group (440-937-2800) for details no later than October 31st, 2022.
- **Wetlands Z Bridge:** The east (Jaycox side) entrance to the Long Bridge to the wetlands (Z bridge) will be roped off until late August. Please do **NOT** use this entrance to the Bridge until the barriers have been removed. The sandy path to the bridge in this area is being used by an insect called the Cicada Killer. This member of the Wasp family digs holes in soft ground creating burrows where they store cicadas they have killed for their larvae to feed on. They are nearly two inches long and look fearsome, but rarely sting if left alone.
- **Mailbox Repairs:** This month will see a lot of work completed on mailboxes throughout the community! We appreciate your patience.
- **Tree Trimming:** Mike's Tree Service will be on site this month trimming large trees in common areas of the property.
- **Outdoor Pool:** Please remember to list the number of guests you are bringing when signing in at the Outdoor Pool and to purchase a Guest Pass from Patty Hales at the Lodge.
- **Contact Information Form:** Please see the enclosed insert regarding this Form. Fill it out **completely** and return it to the Information Center by September 15, 2022. We use this form for multiple purposes including emergencies, email blasts, Breeze information and HUD requirements to maintain our over 55 Community legal status. Information is confidential as stated on the form.
- **Thank You:** To all the many Avenbury Volunteers, Committee members, and the Board of Directors. Thank you for all you do!!!! Thank you also to Max Gorman, who is heading back to Bowling Green State University after working here this past summer! We will miss him and hope he returns next year.
